Exterior Deep Cleaner

Removes dirt, stains and grey patina

Exterior Deep Cleaner is an intensive cleaning product, which rejuvenates patinated outdoor wood. It is a ready-mixed, thick-flowing product, which is easy to apply, even to vertical surfaces. Exterior Deep Cleaner penetrates deep into the wood and removes dirt, coatings and grey patina. For optimum protection, the wood should be treated with WOCA Exterior Wood Oil after cleaning.

- Rejuvinates old weathered and grey wood - removes patina
- Ready mixed - easy to use
- Deep cleaning
- Thick viscosity - Non dripping
- Removal of dirt and restores the natural colour of the wood

Application area

Suitable for outdoor wooden decks, wall coverings, fences, garden furniture etc. Ideal for all types of wood.

Work description

Preparation
Cleaning should be done in dry (ideally overcast) weather, as the cleaner must not be allowed to dry out. Avoid direct sunlight and excessive heat.

Always Remember
Always remember to test on a less visible spot to check the compatibility of the surface with the product.

Treatment
The wood must be soaking wet before application of Exterior Deep Cleaner. Using a brush or spray gun, apply Exterior Deep Cleaner as a smooth, uniform layer and allow the cleaner to work. After approximately 15-20 minutes, scrub the wood using a stiff-bristled brush. We recommend that you use WOCA silicon brush for the best results. Rinse off the Exterior Deep Cleaner, using plenty of water and a stiff-bristled brush. The wood must be left to dry for at least 48 hours, before application of WOCA Exterior Wood Oil.
